GOVERNOR LAURA KELLY

August 2026

Greetings,

As Governor of the great State of Kansas, I offer my congratulations on the milestone 60th Edition of the *Kansas Statistical Abstract* (KSA).

The first edition of the KSA, published in 1965, consisted of 81 pages and compiled social and economic data on Kansas. This set forth the mission of the KSA to ensure this important information is accessible to all citizens in a convenient and efficient format.

The KSA has provided this crucial information for the past 60 years, and at no cost for the past 25 years. The data comes from public data from U.S. government sources, 19 state agencies, and various other institutions. The consolidation of information across many sources, and access to such high-quality data, makes the KSA a quick go-to source for researchers, students, and citizens alike.

I wish the Institute for Policy and Social Research continued success with the *Kansas Statistical Abstract*.

Sincerely,

Laura Kelly
Governor

Preface

> "As data becomes more important in shaping our economy, the KSA provides a wealth of information on how the state has grown and changed over time."
>
> – Donna Ginther, Roy A. Roberts & Regents Distinguished Professor of Economics, Director, Institute for Policy & Social Research

We are pleased to present this 60th Edition of the Kansas Statistical Abstract (KSA). For 60 years, first in print and now online, the KSA has provided Kansans accessible social, economic, and demographic data. The KSA is compiled and published annually by the University of Kansas Institute for Policy & Social Research.

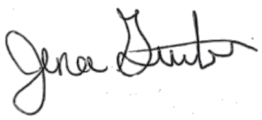

The KSA Editorial Board thanks the many agencies that provided data for the KSA by request or by making their data readily available online. Sources for each table and graph are noted herein.

The KSA Editorial Board thanks Bryce Erickson, Luna Schultz, and Aislinn Reekie for their assistance with data entry, table preparation, and editing. Thanks to Caty Movich for designing the cover for the 60th edition.

We also want to acknowledge past and current staff and their significant contributions to the KSA over the years: Laura Stull, graphic design and editing (1977-2015); Thelma Helyar, project management and editing (1979-2003); Larry Hoyle, software development (1984-2003); Xan Wedel, data compilation, visualization, and online publishing (2000-2026); Susan Mercer, project management and editing (2004-2016); and Genna Hurd, editing (2005-2023).

The KSA reflects IPSR's commitment, as the lead agency of the Kansas State Data Center, to compiling and publishing data on the state for free public use. We hope this edition will be a valuable resource for researchers, policymakers, and interested Kansans. Please let us know if there are ways we can improve the KSA.

On behalf of the Editorial Board,

Jena Gunter, Project Leader
Associate Director

Tips (continued)

Bookmarks
The Bookmarks panel contains links to each individual section or chapter in the *Kansas Statistical Abstract*. Click the > symbol next to any chapter to expand the list of the tables in the chapter. Then click on the title of the table to automatically go to that table in the document.

Limitations of the Data
Some data in the *Kansas Statistical Abstract* are subject to sampling variability; see source for complete methodology and sampling information.

Data from the American Community Survey are associated with a 90% margin of error. We recommend calculating the coefficient of variation to determine the relative amount of sampling error for an estimate and using the following guidelines:

Coefficient of Variation (CV)	Reliability
Less than 12%	Reasonably reliable
12-40%	Use with caution
Greater than 40%	Do not use

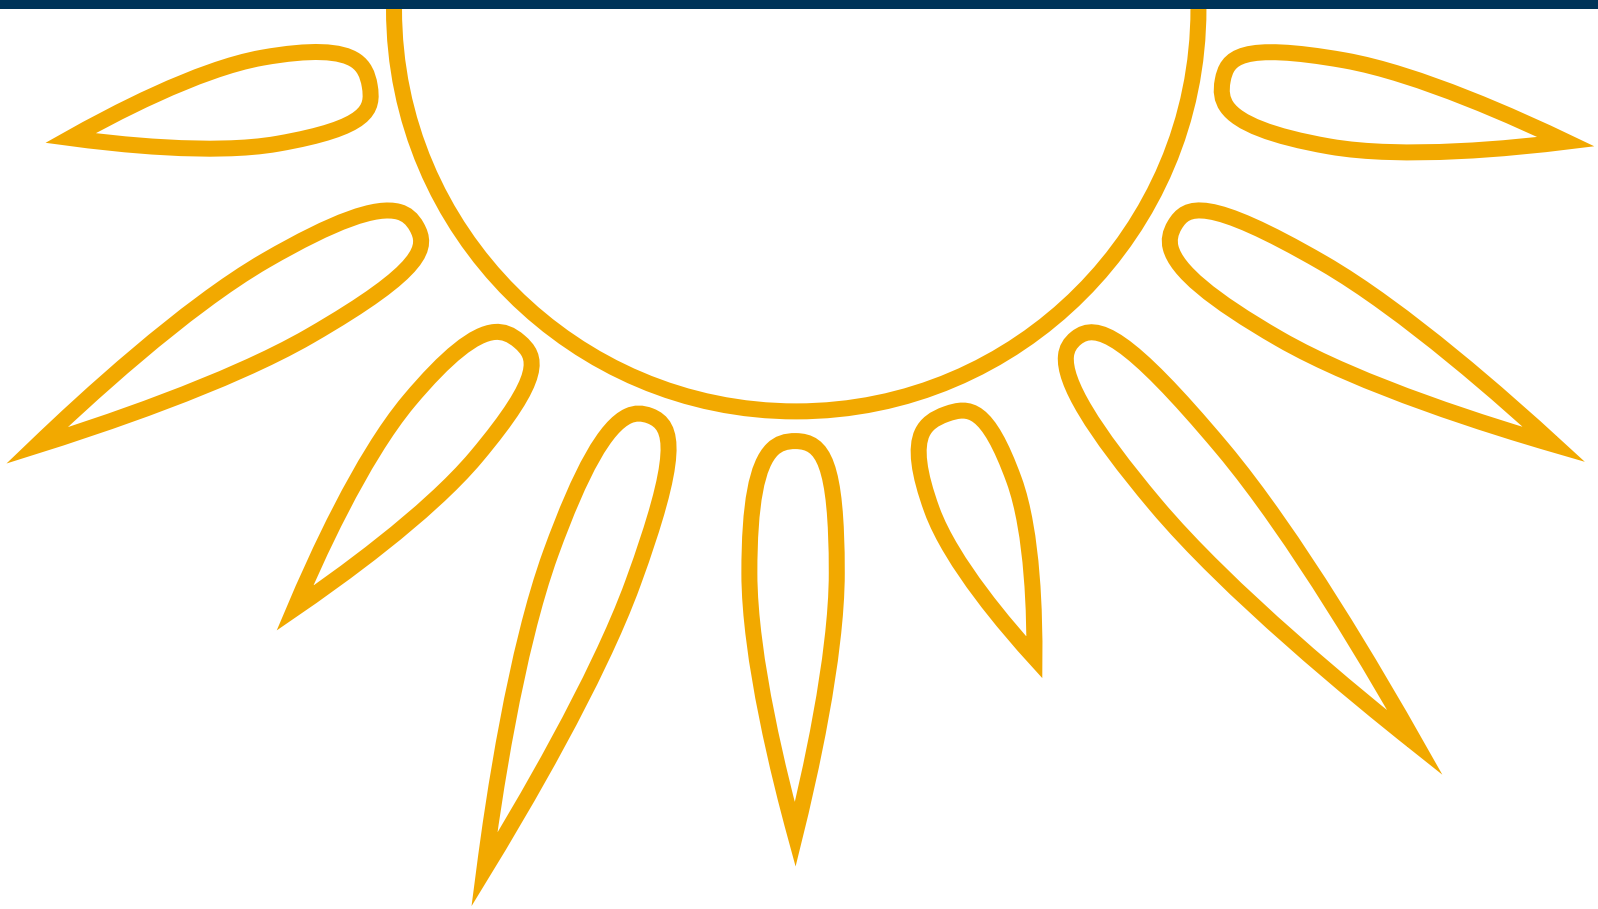

Calculating the Coefficient of Variation (CV):

$$CV = ((MOE_{ACS} / 1.645) / EST_{ACS}) * 100$$

where MOE_{ACS} is the 90% margin of error and EST_{ACS} is the data estimate.

Jurisdiction refers to the legal authority of state or federal correctional officials over a prisoner, regardless of where the prisoner is held. Imprisonment rate is the number of sentenced prisoners under state or federal jurisdiction per 100,000 U.S. residents in a given category. Rates are for December 31st of each year and are based on prisoners with a sentence of more than 1 year. Persons sentenced for a felony in the District of Columbia were the responsibility of the Federal Bureau of Prisons.
